actions of lecturers and employees at FPT University have supported the goal of “Sustainable Cities and Communities” - SDG 11

PUBLIC ACCESS TO FPTU CAMPUSES

FPTU provides the community, visitors, and students’ parents access to its museums, exhibitions, galleries, libraries, and green buildings and spaces.

“World’s Hyperinflation Banknote” Museum

High school students visit FPTU’s “World’s Hyperinflation Banknote” Museum with a significant collection of ancient Vietnamese and international currency.

Toad Museum

FPTU has chosen the toad as its mascot. There is a collection of toad statues in the museum.

Meta Art Exhibition

Nearly 500 works of students majoring in Digital Art and Design were displayed at Meta Art Exhibition, which capturing the interests of FPTU and off-campus students.

“Human Library” project

Human Library is a unique model where you can borrow a “Human book” to have conversations that you don’t have the opportunity to experience. Each human book represents a special group of people in society such as people with disabilities, LGBT people or homeless people, etc.

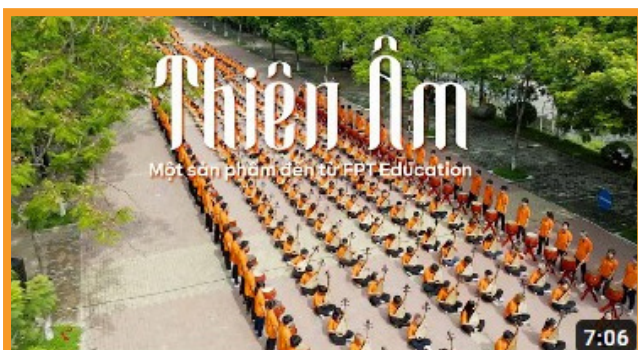

Record and preserve intangible cultural heritage: Traditional Music

MV “Thien Am” set a Vietnam Record on October 18th

1,350 FPTU students and lecturers of FPTU performed 7 traditional musical instruments in the MV “Thien Am” which set a record of the most crowded traditional musical instrument MV in Vietnam. After being released on social media channels for three weeks, the MV has gained more than 285,000 followers.

Record and preserve intangible cultural heritage: Vietnamese Martial Arts - Vovinam

FPTU has taken martial arts Vovinam into the main curriculum for physical education for students since 2014. As a main physical subject, students at FPTU can not only improve their health through martial arts but more importantly, train their temperament and morality to become a good child of the family and a responsible citizen of society.

Does not stop there, the university is spreading the love of Vovinam to everyone, especially young people. FPTU is making a series of community projects "Spreading the love of Vovinam to high school students".

Green designs at FPTU

Green design is a priority of FPTU's buildings. As a result, the abundance of lawns, flower gardens, lakes, and trees on campus has created a green and close-to-nature landscape. Thousands of trees have been planted on each campus in recent years. The buildings' design has won numerous national and international sustainable design awards, such as Future Education award at the World Architecture Festival in 2014, First prize for the Young Architects Category in the Spec Go Green Award 2014, etc.

Shuttle buses at FPTU

In order to reduce emissions from personal transportation, FPTU has increased shuttle buses connected to the city bus system to transport its employees and students.
