actions of lecturers and employees at FPT University have supported the goal of “Life Below Water” - SDG 14

Freshwater lakes and lotus ponds

FPTU is surrounded by many freshwater lakes and lotus ponds. Lotus flowers bloom in these lakes and ponds around in mid-summer. That’s why FPTU students and employees are very interested in these lakes to take photos.

“Journey Down the Mekong River” Project

The project is in the subject SSG104 at FPTU Ho Chi Minh City, which helps people raise awareness to protect the ecosystem of the river.

Environmental Club of FPTU

FPTU students have started an environmental club at their university to keep their school and the local area environmentally friendly. Members of the club usually organize projects such as “Clean Up Vietnam”, “Clean Up Days”, so on to clean the beaches and surrounding areas.

Vietnam has a distinct geographical structure with a long coastline of more than 2,000 km along the border. The awareness of marine environmental protection has been instilled in every Vietnamese.

Da Nang and Quy Nhon City are famous for beach tourism in Vietnam. FPTU’s employees and students in Da Nang and Quy Nhon clearly understand the responsibility to protect the beautiful marine environment offered by nature.

“Beach Clean Up Day” Project

Projects to protect the marine environment regularly take place on Sundays at Da Nang and Quy Nhon beaches where FPTU students together with the local community collect garbage and clean the beaches.
