Hope School

It is not only a place of learning but also a home full of warm love for children.

The menu for students' meals at Hope School is constantly changing. There are separate sections for male and female students in the dining area. Each student will clear up their own tray, spoon, and chopsticks once they have finished eating.

The school also provides an area for students to grow vegetables, so the children can work to have green vegetables for meals. Moreover, they can also do small businesses by selling vegetables to local people living around the school.

After school lessons, students have participated in extracurricular activities such as playing sports, growing vegetables, etc.
