

### Ensure access to affordable, reliable, sustainable and modern energy for all

Electricity-saving measures implemented across the 5 campuses include:

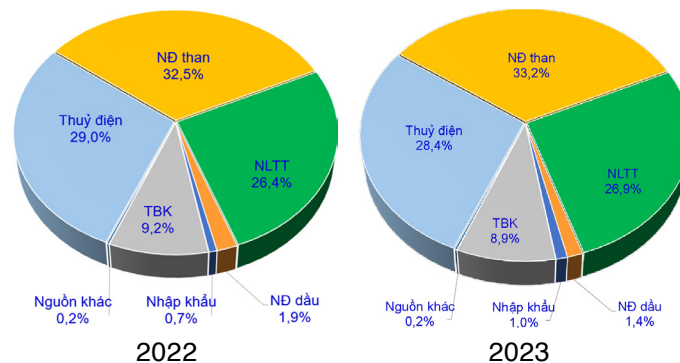

- Using automatic power-off sensors in classrooms
- Installing automatic lights in stairwells
- Implementing timers to control corridor lighting schedules

#### 2023 - FPTU- Scope 2

Renewable power increases **0,5%**

Emissions from electricity consumption **~900 tCO2E**

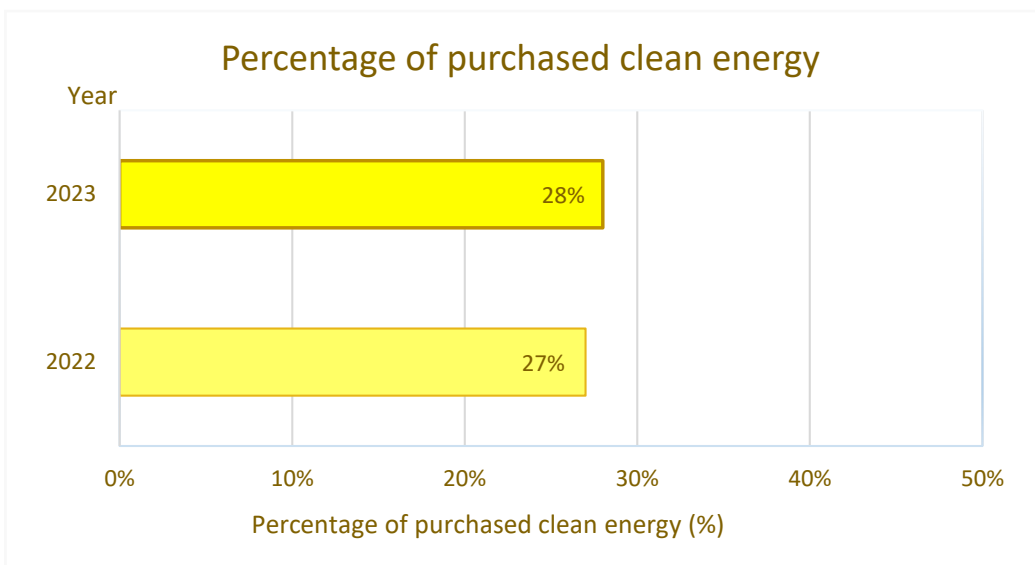

#### Percentage of renewable power

**30,842**  
actions of students at FPT University have supported the goal of “Affordable and Clean Energy” - SDG 7

**1,548**  
actions of lecturers and employees at FPT University have supported the goal of “Affordable and Clean Energy” - SDG 7

#### Percentage of purchased clean energy

## FPTU collaborates with Vinfast on an electric vehicle project for its staff and faculty

VinFast, a subsidiary of Vingroup, is Vietnam's first high-volume automotive manufacturer. Established in 2017, VinFast is committed to producing innovative, world-class electric vehicles (EVs) and promoting sustainable transportation solutions.

## Sustainable Transportation

Nearly 15% of FPTU students in Ho Chi Minh City use public transportation, and this number is on the rise. Faculty, staff, and students in Ha Noi, Ho Chi Minh City, and Da Nang are actively shifting from personal vehicles to electric ones.
