FPTU promotes Green Living and Marine Protection: “Green Steps – Green Life” Project

In July 2026, the FPTU student group – SevenRise Team launched the “Neo Bien” (Ocean Anchor) project in the historic Quynh Phuong fishing village, in Nghe An province, documenting the lives and livelihoods of local fishing communities dependent on marine resources. Utilizing digital media products and an experiential exhibition titled “Man” (Salty) powered by Virtual Reality (VR) technology,

The Department of Digital Art and Design at FPTU Can Tho promotes recycling and by-product reuse through the “Where Flowers Bloom, So Does Hope” workshop

In July 2026, the FPTU student group – SevenRise Team launched the “Neo Bien” (Ocean Anchor) project in the historic Quynh Phuong fishing village, in Nghe An province, documenting the lives and livelihoods of local fishing communities dependent on marine resources. Utilizing digital media products and an experiential exhibition titled “Man” (Salty) powered by Virtual Reality (VR) technology, the team transformed real-world field research into an engaging educational outreach format. Crucially, the field survey and documentation of challenges faced by local fishers raised public awareness regarding threats to marine ecosystems and the impacts of unsustainable fishing practices, thereby fostering responsible marine resource management and conservation actions.
