2 ZERO HUNGER

End hunger, achieve food security and improved nutrition and promote sustainable agriculture

46,021

Actions of students at FPT University have supported the goal of "Zero hunger"- SDG 2

49

research publications aligned with SDG 2: Zero Hunger were published by FPTU faculty members in 2025.

Food security for students

All cafeterias at FPTU provide a wide range of food options, including vegetarian meals at affordable prices, while ensuring food hygiene and safety standards. In addition, the university provides café areas, vending machines and water dispensers in the corridors of campus buildings to meet students' diverse beverage needs while ensuring hygiene and safety standards.

FPTU promotes healthy food choices and improving nutrition awareness: The AnBox Model

In December 2025, the G25 student group developed AnBox, a technology-enabled meal-kit model offering 3-day, 5-day and 7-day meal plans designed to support health goals such as healthy eating, weight management and muscle gain. Each meal kit includes pre-prepared and portioned ingredients together with cooking instructions, while an AI application recommends meal plans based on users' preferences, eating habits and dietary needs. During the pilot phase, the model sold nearly 200 meal kits, generating revenue of VND 31,680,000, and organised nutrition and cooking workshops, contributing to greater awareness of food choices and healthier eating habits among students and young people.

FPTU FOR THE COMMUNITY

FPTU students promote sustainable local entrepreneurship through the “ESG Coach & Practice” project

In 2025, a student team from FPTU Can Tho implemented the interdisciplinary “ESG Coach & Practice” project to support entrepreneurship and sustainable local economic development. With an investment of VND 50 million, the project implemented ESG solutions for three businesses in the Mekong Delta, developed the 3Green.vn digital platform, and connected 13 expert mentors to enhance business competitiveness, improve livelihoods, and strengthen local communities’ economic and climate resilience.

FPTU students promote sustainable food choices through the “Organic Vibes” event

In 2025, a group of FPTU students launched the “Easy Organic” campaign to promote awareness of organic agriculture among young people. A key activity was the “Organic Vibes” event at FPTU Ho Chi Minh, featuring experts in organic agriculture, including representatives of the Vietnam Organic Agriculture Association (VOAA) and Naturland Vietnam. The event enabled hundreds of students to gain knowledge of organic agriculture and sustainable production through experiential activities. More than 1,000 organic product samples were distributed, promoting healthy lifestyles and raising awareness of responsible consumption.

FPTU students support OCOP enterprises and local agricultural products through the Ngoc Thanh Farm project

During the Spring 2025 semester, a group of K17 students from FPTU supported Ngoc Thanh Farm, a four-star OCOP melon producer in Hau Giang, by developing a communications toolkit, a brand identity system, and digital content. The group also proposed the use of QR codes to provide information on cultivation processes and organised an OCOP market at the farm. The project contributed to strengthening the enterprise’s market access capacity, promoting local agricultural products, and supporting sustainable agriculture.

The iGo Club of FPTU provides food and essential supplies for informal workers through the “Lunar New Year Reunion 2026” programme

Programme In early 2026, the iGo Club of FPTU organised the “Welcoming Spring – Night of Giving” activity in Hanoi, distributing food and essential supplies to disadvantaged informal workers ahead of the Lunar New Year. The activity contributed to improving access to essential food, reducing part of the living costs for informal workers, and fostering a sense of community support during the year-end holiday period.

The SiTiGroup Student Volunteer Community supports children from disadvantaged backgrounds through the “Bringing Spring to Children” activity at Kim Chi Shelter

The SiTiGroup Student Volunteer Community organised the “Bringing Spring to Children” activity at Kim Chi Shelter, providing gift packages containing food and essential supplies for children receiving care at the shelter. In addition to supporting their essential needs, volunteers organised recreational and social activities, bringing encouragement and a warm atmosphere to the children during the Lunar New Year. The activity contributed to promoting community solidarity and supporting children from disadvantaged backgrounds.

FPTU provides Lunar New Year gifts for flood-affected communities and vulnerable groups through the “Hope for Tet 2026” programme

Programme The “Hope for Tet 2026” programme of the Hope Foundation provided 1,165 gift packages, with total funding of VND 2.685 billion, to people affected by storms and flooding and vulnerable groups across multiple localities. Each gift package included cash, essential supplies, or support for Lunar New Year activities, contributing to reducing financial pressure and helping disadvantaged households, people with visual impairments, orphans, and vulnerable children celebrate the Lunar New Year.
