LIFELONG LEARNING AT FPTU

FPTU provides free public access to educational resources and community facilities

Operating continuously 7 days a week (8:00 AM – 9:00 PM) across 5 campuses nationwide (Hanoi, Da Nang, Quy Nhon, Ho Chi Minh, Can Tho), FPTU provides completely free access to its library network, digital repositories (thousands of books, research papers, theses), sports facilities, and Vovinam dojos for local communities and non-students. The university also organizes regular public events, including Book Fairs, 7-Day Reading Challenges, and annual book donation drives supporting literacy for underprivileged children. This initiative actively advances the lifelong learning targets by ensuring inclusive, equitable, and non-discriminatory access to education, knowledge, and physical development for all.

FPTU expands lifelong learning opportunities through free Coursera access

Implemented in January 2026, FPTU provided free Coursera accounts to alumni. The initiative granted free access to an extensive online learning library featuring more than 10,000 internationally recognised courses across multiple disciplines, enabling graduates to continuously develop their expertise and professional skills after graduation. The initiative promotes lifelong learning and reflects FPTU's commitment to providing sustainable access to high-quality educational resources for its alumni community.

FPTU students apply AI to ophthalmic disease simulation in collaboration with hospitals through the VISTA project

A group of FPTU students developed VISTA, an AI-integrated visual simulation solution that enables patients to directly experience their vision conditions through real-life situations, such as night driving or reading small text, rather than relying solely on clinical explanations. After receiving a VND 50 million entrepreneurship scholarship from FPTU, the project was transferred to VISI Eye Hospital Soc Trang and has been in operation since February 2026, contributing to stronger collaboration between FPTU students and healthcare providers while improving patient consultation and treatment.

International collaboration to promote holistic health: Partnership between FPTU and GLG Yoga School

On 12 September, FPTU welcomed a delegation from GLG Yoga School, an international yoga teacher training institution in Viet Nam, to discuss future collaboration. The two institutions agreed to jointly organise an International Yoga Conference on Holistic Health, aiming to promote the mental and physical well-being of students and faculty members. The partnership extends beyond basic healthcare, investing in long-term solutions to enhance mental and physical health across the university community.

FPTU supports underprivileged highland schools through community library outreach

From September 12—22, 2025, FPTU collaborated with the “Yearbook on the Highlands” project (Season 4) and Skybooks to implement community book drives, including “Highland Library” and “Mountain Bookcase”. The initiative collected and donated over 400 educational materials, language books, and skill-building publications directly to 896 students at Ngoi Cay Primary and Secondary School (Dien Bien Province). This educational outreach activity directly delivers free educational resources to remote school communities, fostering literacy, and reducing educational inequalities for disadvantaged and ethnic minority students.

FPTU IT students provide AI training and upskilling for Youth Union cadres

From March to April 2025, IT students of FPTU organized the large-scale vocational training project “Troubled by AI? Youth Can Handle It!” across 6 major provinces and cities (Hanoi, Hai Phong, Da Nang, Binh Dinh, Ho Chi Minh City, and Can Tho). The program delivered practical digital upskilling, prompt engineering, and fundamental AI training to nearly 500 local Youth Union officials (non-students). This community-oriented educational outreach provides accessible, high-impact vocational and digital literacy training, bridging technological divides and empowering grassroots community leaders with advanced digital competencies.

FPTU provides free AI and digital skills training for educational communities

Throughout 2025, FPTU expanded free digital empowerment for local and national communities through high-impact outreach initiatives: the certified “AI First 2025” workshop for local youth in Ngu Hanh Son Ward and the open online course “AI in Teaching and Learning”, which attracted over 3,000 K-12 teachers and pupils in its opening session - contributing to over 15,000 educators and students reached within a year under the “STEM Education in the Age of AI” project. Delivering hands-on skills in prompting, AI automation workflows, and generative video creation alongside digital ethics to non-enrolled learners, these public educational activities already bridge technological divides across school communities nationwide.

The Department of English at FPTU provides free English classes for children in disadvantaged shelters

Sustained over the past 2 years, the ELF for Community (ELF-4-C) Club under the Department of English at FPTU Ho Chi Minh has conducted weekly in-person, free English classes for vulnerable children across 3 local social welfare centers: Huong Duong Shelter, Tam Binh Child Protection Center, and Thu Duc Youth Village. The initiative integrates regular language lessons with festive cultural interactive playgrounds, enhancing language proficiency and free educational opportunities for vulnerable children and marginalized youth in local communities.

The English Language Department and Student Affairs Office of FPTU nurture a love of English among local primary school pupils

From June to July 2025, the English Language Department and Student Affairs Office of FPTU Can Tho, in collaboration with the FEL Club and An Binh Ward Youth Union, organized a 2-month free English program held at 6:30 PM every weekend. The course delivered foundational language lessons and interactive learning environments to nearly 100 Grade 1–3 pupils from An Binh 3 Primary School. This local school community outreach directly offers cost-free, high-quality primary education access and fostering early second-language acquisition among local young learners.

FPTU provides school psychology workshops for high school students

On January 4 2025, FPTU hosted the psychological wellness and career guidance workshop “GenZ: Listening to Yourself” at Phan Chau Trinh High School (Da Nang), engaging over 1,700 Grade 11 and 12 students in person. Featuring educational psychology and career specialists, the seminar delivered critical mental health awareness, stress management strategies, essential life skills and vital insights into modern labor market trends and future career planning.
